

Geographic Enrichment Grant Cycle

Purpose and Process

Revised 2/9/2023

The mission of the Charlevoix County Community Foundation (C3F) is to enhance the quality of life for all citizens of Charlevoix County, now and for generations to come. The Community Foundation helps people make a difference close to home by accepting contributions of all sizes. Each year, the Community Foundation makes grants to organizations, schools, and municipalities to make positive change in Charlevoix County.

What is the purpose of the Geographic Enrichment Cycle?

The purpose of the Geographic Enrichment Cycle is to offer all eligible nonprofit partners the opportunity to apply for project and program support on Beaver Island, in Boyne City, Charlevoix, and/or East Jordan. Individuals, couples, families, and businesses who advise funds at the Community Foundation (donor advisors) may choose to make grants through the cycle as well.

Eligible applicants include:

- 501(c)(3) tax-exempt nonprofit organizations
- All units of government
- All educational institutions (preschool through college)
- Organizations described above that serve Charlevoix County residents
- Organizations that do not discriminate in hiring of staff or the provision of services

Eligible organizations must be current with follow up reports for all previous grant awards from C3F and be in good standing with the IRS.

When is the application deadline?

The Geographic Enrichment Cycle deadline is October 1 by 11:59 PM (Eastern), regardless of whether this is a weekday or weekend. The application will be available annually at www.c3f.org beginning in early August.

What kinds of projects or programs are most likely to receive grant funding?

The Geographic Enrichment Cycle aims to attract requests that are focused on the people of and places in Charlevoix County's individual communities. There are enrichment funds dedicated to Beaver Island, Boyne City, Charlevoix, and East Jordan. Organizations impacting more than one of the communities may be eligible to apply if the following conditions are met: the work will result in a deliverable to each community impacted, and the proposal indicates the estimated percentage of the work that will take place in each community impacted.

Successful requests may include any of the following characteristics: demonstrate collaboration, address new needs or try new approaches for existing needs, encourage people to help themselves, focus on prevention of problems, and/or avoid duplication of services.

Geographic Enrichment grant proposals will additionally be evaluated on the following specific criteria:

- Organization's impact and relevance in the community(ies) served

- Organizational capacity (leadership, staffing, planning, etc.), and solvency
- Degree to which funds will help strengthen the organization and/or the community the organization serves
- Comprehensiveness of proposal, including degree to which proposed activities are well-planned and address the need identified
- Duration of impact in the community served

Organizations should ask for what they need. Restrictions will not be placed on requests by the Community Foundation to limit size or scope of request. Rather, applicants will determine those factors for themselves. Grant review committees will prioritize grant requests that score best on the criteria listed above.

What kinds of grants are generally not funded?

The Community Foundation's grant cycles generally do not fund annual fundraising campaigns, political campaigns, deficit spending, sectarian projects, or services normally supported by tax dollars.

All grant applications require a cash contribution. How much is necessary?

It depends on the topic and scope of the project, but the expectation is that nonprofit partners will contribute to the budget of the project or program.

What size grants are available in the Geographic Enrichment Cycle?

This cycle encourages grants of all sizes. The request size should reflect the organization's need. Donor Advisors may also decide to contribute through their Donor Advised Funds. Community Foundation staff can provide additional guidance and information, if needed.

How does the Community Foundation make grant decisions for the Geographic Enrichment Cycle?

Each of the four communities (Beaver Island, Boyne City, Charlevoix, East Jordan) has an Advisory Committee. These committees review grant applications and recommend funding to the C3F Board of Trustees. The Community Foundation will also share these opportunities with donor advisors, who may choose to make grants through this cycle.

When will grant funding decisions be announced?

Community Foundation staff will notify grant applicants following approval from the Board of Trustees in early November.

What kind of follow up reporting is required?

The grant period is one year. A follow up report is available through the online grant portal to share about the successes of the program or project as well as the lessons learned. Providing photos is encouraged. Funded organizations will receive a reminder from administrator@grantinterface.com two weeks before the follow up report is due, then again one day prior to the due date, and once more if the report has not been submitted by the deadline. If the program or project is delayed or cannot be completed within the time period, the organization's representative should call the Community Foundation.

Are there any other requirements?

- The governing board of the organization is responsible for appropriate use of funds and project implementation.
- Applicants must be current with follow up reports for all previous grants in order to apply.
- Proposals from faith-based organizations must address community needs and
 - Have a clearly demonstrated public benefit
 - Be fully accessible to all people regardless of religious beliefs and lifestyle choices
 - May NOT proselytize, (i.e. require anything in return for services provided. Examples: attending services or prayer groups and/or volunteering, etc.)

How to Apply for a Geographic Enrichment Grant

Step 1: Contact Ashley Cousens to discuss your eligibility. If your organization's need is a good fit for the Geographic Enrichment Cycle, you will receive an access code for the online grant application. Email acousens@c3f.org to get started.

Step 2: Visit www.c3f.org to log on to the online grant application (“Accepting Applications” link for the Geographic Enrichment Grant Cycle).

- If you have an account already, you may log on and proceed to the application using your access code.
- If you do not already have an account, you will need to create one (each user needs their own username (email address) and password) before proceeding to the application using your access code. The user who starts the application has editing rights for the application going forward. This person can invite others to contribute to the application once started.

Step 3: Complete the online grant application. You may save your work and return at any point prior to submitting your application. The application can be shared with others who may be sharing the responsibility of writing the grant proposal and completing the application. To utilize this feature, click on “collaborate” at the top of the application and enter the email address of the person needing access. Contact Ashley Cousens if you need help troubleshooting this feature. Once you submit your application, you will receive immediate confirmation via email. You may be contacted with further clarification questions regarding your application and/or eligibility.

Step 4: The Community Foundation will share your applications with donor advisors to encourage grant support.

If Funded...

The Community Foundation will share news of the grant decisions by phone after the C3F Board of Trustees approves recommendations from the Advisory Committee. Applicant organizations will also receive an emailed letter detailing the funding decision.

Receive the grant check. The grant check will be mailed to your organization following the notification phone call from C3F staff. Usually, checks are mailed out within 2 weeks of the decision.

A follow up report is required when the project is complete and within one year of the grant award. If the project is completed early, the follow up report should be submitted sooner.
